

EP Device Implant Registry

Dashboard NEWS.....

Exciting News - The EP Device Implant Registry Metrics and Measures Guide v2.3 is Available!

The EP Device Implant Registry v2.3 Metrics and Measures Guide (Formerly Known as Outcomes Report Companion Guide) is released!

The Guide has been revised and reformatted to facilitate research of EP Device Implant Registry Metric Algorithms, Clinical Rationale/Recommendations and Relevant Citations. This Guide references all currently abstracted EP Device Implant Registry metrics including novel pacemakers. Please select "Resource / Documents" from the side Menu to access this guide.

2021Q2 R4Q US Registry Benchmarks are Published

Executive Summary Metrics and Detail Lines are available from the dashboard when the Ending Timeframe is set to 2021Q2. Please review the Release Notes for each report cycle by navigating to the hamburger menu in the dashboard and selecting 'Release Notes'. Both Executive Summary and Detail Line views offer filtering options, weekly aggregation, a bookmarking feature, volume group and registry comparison, patient level drill down on select detail lines, and the ability to export to PDF or Excel. Please continue to monitor the announcements page for the updated Executive Summary Metric companion guide.

Data Deadline Reminder.....

Data Deadline for 2021 Quarter 3 is Tuesday, January 11th, 2022. That's for discharges between July 1st - September 30th, 2021

New Feature on the EPDI Registry Platform

To facilitate abstraction for the Leads Only v2.3 DCT (Data Collection Tool) the required data elements can now be highlighted. Click on the toggle button for "Highlight LDS" and the required data elements for the Leads Only Episode of Care will highlight in yellow. Hover over 'LDS' to view the description "Use for Single Leads Only Episode of Care".

Metric 34 - Proportion of Defibrillator Patients With a Primary Tachycardia Indication and a Bradycardia Indication has been Updated!

Metric 34 Denominator has been updated in accordance with guideline recommendations.

The Denominator has been revised.

From: Patients with final device type of ICD single chamber, ICD dual chamber, CRT-D, or S-ICD (Sub Q)

To: "Patients with final device type ICD dual chamber"

The Denominator algorithm is now: *Device Implanted (7620) = Yes AND Final Device Type (7625) = ICD Dual Chamber*
