## Dashboard NEWS.....

### LAAO Registry Added Metrics

- The LAAO Registry is pleased to share new metrics
  - In-Hospital Informational Data Metrics:
    - Patients' Average HAS-BLED Score [Metric 24]
    - Patients' Average CHA<sub>2</sub>DS<sub>2</sub>-VASc Score [Metric 25]
- 45-Day Follow up:
  - Metric 216: Proportion of WATCHMAN procedures where a 45 day follow-up diagnostic imaging was performed
- Devices Added:
  - The Amulet received FDA approval 08/13/2021
  - Device is available for selection on the Device List
  - Procedures on or after 8/13/2021 in which an AMULET was implanted, now entered in the registry

Important!!!  
 Pt's receiving a  
**AMULET** participating  
 in the **CATALYST** trial  
**will not** be included  
 in the registry (but stay  
 tuned!)

If a patient is coded to have received an Amulet device after August 13, 2021, the patient may be entered into the LAAO Registry if not enrolled in the CATALYST study.
