# ICD

Important Announcement

ICD Dashboard Modernization: In preparation of the launch for version 2.3 and as part of our ongoing effort to provide meaningful data, improve care and deliver value to our users, the ICD Registry will be launching a new dashboard interface. The new dashboard delivers improved aesthetics and functionality for participants. Features of the updated dashboard include:

- New data displays ("views") accessible from the eReports View dropdown menu:
  - Executive Summary - this page displays all Executive Summary Metrics.
  - Detail lines -these comprehensive registry detail lines are now available in a dashboard dropdown.

Implementation will be in phases:

- Phase I – convert version 2.2 dashboard to new platform (late February/early March)
- Phase II = populate data and add new version 2.3 metrics to dashboard (late Q1/Q2)

FOR ME

Metrics 14 and 25 have been approved to be used as a new quality composite metric that will ultimately be used in public reporting.

ICD Quality Composite

The APPROVED Quality Composite Metric will be a combination of the following metrics:

ICD - Metric 14: Composite: Discharge medications (ACE/ARB and Beta Blockers) in eligible ICD/CRT-D implant patients	Process -Effectiveness
ICD - Metric 25: Proportion of ICD/CRT-D patients that fulfill class I, IIa, or IIb guideline indications	Guidelines

Anticipated launch of the ICD Quality Composite Metric: 2021Q1
