## Dashboard News....

- Registry Updates
  - LAAO Follow-Up Call for Data Schedule Change:
    - As part of the NCDR project to enhance the dashboard real time weekly aggregation of follow up data we have made adjustments to the follow up call for data schedule to allow a broader window since the dashboard will be able to provide more real time feedback for all follow up timeframes through 2 years.
    - The result of this change is 45 day slides back by 1 quarter; 6 month slides back by 1 quarter; 1 and 2 year slide back by 2 quarters.
    - Effective 2020Q3 December 1, 2020 call for data
  - LAAO Follow-Up Weekly Aggregation:
    - As part of the NCDR project to enhance the dashboard real time weekly aggregation of follow- up data, 6 month, 1 year, and 2 year follow-up data will be aggregated on a weekly basis:
      - The 6 month, 1 year, and 2 year follow-ups weekly aggregations will be performed on 3 quarters after the last published
        - For example: if the last published 6 month quarter was 2019Q4, the weekly aggregations will include 6 month follow-ups from 2020Q1, 2020Q2, and 2020Q3
      - The 45 day follow-up aggregation will remain unchanged and be performed on 2 quarters after the last published
- Registry Resources
  - Resource Sharing
    - Please use the Resource Sharing functionality found under the Resources page to share tools or processes your facility has instituted with other participants. Also, see what other participants have shared.
  - Start Here Tab
    - The Start Here tab is providing on-boarding education in the form of videos. These videos contain the information necessary to get started in the NCDR.
  - Quality Improvement for Institutions
    - The QII Learning Center will have available educational courses which you can do at your own time.
  - Case Scenarios
    - The Resource tab also houses the monthly Case Scenarios. The NCDR keeps a revolving 12 months of case scenarios. Starting 2020 the case scenarios are being posted in video format.
