

You're Invited! - Internal Quality Audits with CRS and Ohio Health

This year, in our continued efforts to provide education to our members, the Ohio Thoracic and Cardiovascular Data Management Group will be hosting a series of online "Lunch & Learn" sessions covering interesting case scenarios that our members have experienced. Each session will be a 30-minute "Quick Bite" with a focus on one of the major cardiovascular data registries. We will rotate to a new registry for each session.

Join us for our next "Lunch & Learn" on Wednesday, November 10th at 12pm EST. For this session, our special hosts from Cardiac Registry Support (CRS) and Ohio Health will review their process for Internal Quality Audits.
